The artist who built the planet he couldn't find

Mike Sain't Louis is an independent artist from Madrid and the creator of GAYFOLK, a musical, visual and narrative universe built around an imaginary queer planet.

He writes all of his lyrics, many of them autobiographical, and creates the music with artificial intelligence tools, including Suno. He has said so openly from day one: the machine provides the sound; the words, the concept and the choice of what gets released are his.

He has been releasing music since 2024. That year the project was a duo with singer Patry, went viral on TikTok with «Tan Cateto» and released «Tragicomedias del Señor Sombrero», with interviews in Dale al Play Music, Muzikalia and Viva Radio. Today he continues as a solo artist.

His work blends alternative pop, electropop and copla (traditional Spanish song) with Spanish camp humour, and speaks openly about gay love, mental health, bullying, homophobia and relationships with narcissists. All of his music is self-released on his own label and can be downloaded for free on the official website.

IN ONE SENTENCE

A queer artist from Madrid who writes his own lyrics and creates the music with AI, author of the GAYFOLK trilogy: 275 songs about an imaginary planet.

“I use the machine the way others use a studio or a band, but what the songs say is mine.”

— MIKE SAIN'T LOUIS

GAYFOLK, a trilogy in three steps

Three albums that work as a single journey: discovering the planet, longing to get there and, finally, arriving. Every song has its own official music video. Songs are in Spanish.

ALBUM I

DESCUBIERTO UN NUEVO PLANETA LLAMADO GAYFOLK

Discovery. The planet appears and gets its name. It opens with «La primera drag» (The first drag queen) and closes with its title track.

90 songs

ALBUM II

OJALÁ SE PUDIERA VIAJAR A GAYFOLK

Longing. The wish to go somewhere you can be yourself, seen from afar.

86 songs

ALBUM III

EL DÍA DE LA LIBERACIÓN

Liberation. The longest album: letting go of what weighed you down and starting again. It opens with «Free Britney».

99 songs

275 SONGS · 3 ALBUMS · SELF-RELEASED

Six songs to start with

«La primera drag»

The first interstellar drag queen: a night out with Spanish fashion designer Ana Locking.

«Llorar»

«Cry»: a song against the idea that crying is for the weak.

«He creado un novio con inteligencia artificial»

«I created an AI boyfriend»: love, loneliness and technology, told from inside a project made with AI.

«Tan Cateto»

The track that went viral on TikTok in 2024.

«Ojalá hubiera tenido de suegra a Carmina Barrios»

«I wish Carmina Barrios had been my mother-in-law»: Sevillian humour and the dream of a welcoming family.

«El día de la liberación»

«Liberation Day»: the song that closes the trilogy.

WHAT IT'S ABOUT

Gay love · mental health without stigma · bullying · homophobia · relationships with narcissists · camp humour · copla · Spanish pop-culture icons (Lola Flores, Almodóvar, Camela, Carmina Barrios)
